Detection, by three techniques, of hepatitis B surface antigen (HBsAg) and determination of HBsAg and anti-HBs titres in patients with chronic liver disease MARIA CHIARAMONTE, JENNY HEATHCOTE, M. CREES, AND SHEILA SHERLOCK 1
Speed of change in biliary lipids and bile acids with chenodeoxycholic acid—is intermittent therapy feasible? J. H. ISER, G. M. MURPHY, AND R. HERMON DOWLING 7
Amylase creatinine clearance ratio after biliary surgery L. A. DONALDSON, W. MCINTOSH, AND S. N. JOFFE 16
Controlled trial of synthetic D-penicillamine and prednisone in maintenance therapy for active chronic hepatitis R. B. STERN, S. P. WILKINSON, P. J. N. HOWORTH, AND ROGER WILLIAMS 19
Vitamin B_6 deficiency in chronic liver disease—evidence for increased degradation of pyridoxal-5′-phosphate D. LABADARIOS, J. E. ROSSOUW, J. B. MCCONNELL, M. DAVIS, AND ROGER WILLIAMS 23
Correlation between hepatic morphology and immunoglobulins and antibodies to *Escherichia coli* in cirrhosis HANNE PRYTZ, M. BJØRNEBOE, P. CHRISTOFFERSEN, H. POULSEN, AND F. ØRSKOV 28
Zinc in ulcerative colitis: a therapeutic trial and report on plasma levels M. W. DRONFIELD, J. D. G. MALONE, AND M. J. S. LANGMAN 33
Consequences of partial and subtotal colectomy in the rat P. C. MASESA AND J. M. FORRESTER 37
Lactate dehydrogenase isoenzyme pattern in uninvolved mucosa of patients with colorectal carcinoma ROSALIND TAYLER, V. H. CUMBERLAND, AND D. W. PIPER 45
Reinvestigation of lactose intolerant children: lack of correlation between continuing lactose intolerance and small intestinal morphology, disaccharidase activity, and lactose tolerance tests MARY HARRISON AND J. A. WALKER-SMITH 48
Coxsackie and mumpsvirus infection in a prospective study of acute pancreatitis C. W. IMRIE, J. C. FERGUSON, AND R. G. SOMMERVILLE 53
Basal gastric secretion: reproducibility and relationship with duodenal ulceration R. G. FABER AND M. HOBSLEY 57
Significance of Ca-soap formation for calcium absorption in the rat G. GACS AND D. BARLTROP 64
Sulphasalazine in asymptomatic Crohn's disease A MULTICENTRE TRIAL 69
Nitrite and thiocyanate in the fasting and secreting stomach and in saliva W. S. J. RUDDELL, L. M. BLENDIS, AND C. L. WALTERS 73
Controlled trial of Duogastrone in duodenal ulcer W. A. DAVIES AND P. I. REED 78
Notes and activities 84
Books 84

No. 2 FEBRUARY 1977

24-hour intragastric acidity and nocturnal acid secretion in patients with duodenal ulcer during oral administration of cimetidine and atropine R. E. POUNDER, R. H. HUNT, S. H. VINCENT, G. J. MILTON-THOMPSON, AND J. J. MISIEWICZ 85
Morphological and pharmacological studies of the parietal cells of the stomach in the dog during periods of maximal acid output and after the gastric secretory inhibitor UK-9040 D. B. HAMER, A. B. PRICE, AND J. H. BARON 91
Effect of cimetidine on the human lower oesophageal sphincter D. H. OSBORNE, J. LENNON, M. HENDERSON, G. LIDGARD, R. CREEL, AND D. C. CARTER 99
Effect of fundic distension on gastric acid secretion in man U. GRÖTZINGER, S. BERGEGÅRDH, AND L. OLBE 105
Effects of oral calcium gluconate on gastric acid secretion and serum gastrin concentration in man M. J. BRODIE, P. C. GANGULI, A. FINE, AND T. J. THOMSON 111
Crohn's disease of the duodenum F. WARREN NUGENT, M. RICHMOND, AND S. K. PARK 115
Lowering of fasting and food stimulated serum immunoreactive gastric inhibitory polypeptide (GIP) by glucagon R. EBERT, R. ARNOLD, AND W. CREUTZFELDT 121
Comparative study of the value of the calcium, secretin, and meal stimulated increase in serum gastrin to the diagnosis of the Zollinger-Ellison syndrome C. B. H. LAMERS AND J. H. M. VAN TONGEREN 128
Human intestinal ion transport *in vitro* G. L. CORBETT, P. E. T. ISAACS, A. K. RILEY, AND L. A. TURNBERG ... 136
Relationship between changes in intraluminal pressure and transmural potential difference in the human and canine jejunum *in vivo* N. W. READ, R. H. SMALLWOOD, R. J. LEVIN, C. D. HOLDSWORTH, AND B. H. BROWN 141
Whipple's disease with minimal intestinal involvement S. MOORTHY, G. NOLLEY, AND J. A. HERMOS 152
Transmission of rotavirus gastroenteritis from children to a monkey J. D. MITCHELL, L. A. LAMBETH, L. SOSULA, A. MURPHY, AND M. ALBREY 156
Ultrasound and jaundice F. R. VICARY, G. CUSICK, I. M. SHIRLEY, AND R. J. BLACKWELL 161
Medical Rearch Council and Health Departments—Joint statement of policy for biomedical research: gastroenterology 165
Notes and activities 170
Books 170

No. 3 MARCH 1977

Plasma levels and intestinal absorption of 25-hydroxyvitamin D in patients with small bowel resection JULIET E. COMPSTON AND B. CREAMER 171
Mechanism of malabsorption in giardiasis: a study of bacterial flora and bile salt deconjugation in upper jejunum B. N. TANDON, R. K. TANDON, B. K. SATPATHY, AND SHRINIWAS 176

Contents

Page

Effect of iron and protein deficiency on the expulsion of *Nippostrongylus brasiliensis* from the small intestine of the rat T. D. BOLIN, A. E. DAVIS, A. G. CUMMINS, V. M. DUNCOMBE, AND J. D. KELLY 182
Effect of aspirin on intestinal absorption of glucose, sodium, and water in man C. ARVANITAKIS, G-H. CHEN, J. FOLSCROFT, AND N. J. GREENBERGER 187
Plasma secretin and pancreatic bicarbonate response to exogenous secretin in man W. H. HÄCKI, S. R. BLOOM, P. MITZNEGG, W. DOMSCHKE, S. DOMSCHKE, D. BELOHLAVEK, L. DEMLING, AND E. WÜNSCH 191
Chronic pancreatitis: a cause of cholestasis J. SCOTT, J. A. SUMMERFIELD, E. LIAS, R. DICK, AND SHEILA SHERLOCK 196
Models of gastric emptying D. F. STUBBS 202
Relationship between undissociated acidity of gastric juice and gastric protein secreted in response to graded doses of pentagastrin in duodenal ulcer patients T. POPIELA, Z. SZAFRAN, HALINA SZAFRAN, AND M. KOMOROWSKA 208
Gastric gland metaplasia in the small and large intestine I. YOKOYAMA, S. KOZUKA, K. ITO, K. KUBOTA, Y. YOKOYAMA, AND T. KONDO 214
Glucosamine synthetase activity of the colonic mucosa in ulcerative colitis and Crohn's disease M. J. GOODMAN, P. W. KENT, AND S. C. TRUELOVE 219
Glucosamine synthetase activity of the colonic mucosa in membranous colitis M. J. GOODMAN, P. W. KENT, AND S. C. TRUELOVE 229
Immunoprophylaxis and therapy of grafted rat colonic carcinoma M. S. MARTIN, F. MARTIN, E. JUSTRABO, M. F. MICHEL, AND A. LAGNEAU 232
Ileorectal anastomosis in patients with Crohn's disease of the colon G. FLINT, R. STRAUSS, N. PLATT, AND L. WISE 236
Effect of sodium chenodeoxycholate on oxalate absorption from the excluded human colon—a mechanism for 'enteric' hyperoxaluria P. D. FAIRCLOUGH, T. G. FEEST, V. S. CHADWICK, AND M. L. CLARK 240
Incidence and immunochemical features of serum cryoglobulin in chronic liver disease G. P. JORI, G. BUONANNO, F. D'ONOFRIO, A. TIRELLI, F. GONNELLA, AND S. GENTILE 245
Immune responses to the hepatitis B surface antigen and liver-specific lipoprotein in acute type B hepatitis W. M. LEE, W. D. REED, C. G. OSMAN, J. VAHRMAN, A. J. ZUCKERMAN, A. L. W. F. EDDLESTON, AND ROGER WILLIAMS 250
Notes and activities 258
Books 258

No. 4 APRIL 1977

Immunofluorescent localisation of enterokinase in human small intestine J. HERMON-TAYLOR, J. PERRIN, D. A. W. GRANT, A. APPLEYARD, M. BUBEL, AND A. I. MAGEE 259
Ischaemic strictures of the small intestine in Nigeria S. G. SUBBUSWAMY, AND F. I. IWEZE 266
Intestinal alkaline phosphatase in the diagnosis of liver disease T. W. WARNES, P. HINE, AND G. KAY 274
Activation and release of proteolytic kinin-forming enzymes from rat jejunal loops perfused with hyperosmolar glucose solutions K. J. WORTHINGTON AND A. CUSCHIERI 279
Rectal potential difference and histology in Crohn's disease W. S. J. RUDDELL, L. M. BLENDIS, AND D. LOVELL 284
Enzymatic and morphometric evidence for Crohn's disease as a diffuse lesion of the gastrointestinal tract W. T. DUNNE, W. T. COOKE, AND R. N. ALLAN 290
Symptomatic significance of gastric mucosal changes after surgery for peptic ulcer A. M. HOARE, E. L. JONES, J. ALEXANDER-WILLIAMS, AND C. F. HAWKINS 295
A search for volatile nitrosamines in East African spirit T. A. GOUGH 301
Effect of atropine and proximal gastric vagotomy on the acid response to fundic distension in man U. GRÖTZINGER, S. BERGEGÅRDH, AND L. OLBE 303
Antibodies to pancreatic duct cells in Sjögren's syndrome and rheumatoid arthritis H. LUDWIG, G. SCHERNTHANER, O. SCHERAK, AND G. KOLARZ 311
Progress report ERCP P. B. COTTON 316
Notes and activities 342
Books 342

No. 5 MAY 1977

Giadiasis: clinical and therapeutic aspects S. G. WRIGHT, A. M. TOMKINS, AND D. S. RIDLEY 343
Escherichia coli serotypes throughout the gastrointestinal tract of patients with intestinal disorders SOAD TABAQCHALI, ALISON HOWARD, C. H. TEOH-CHAN, K. A. BETTELHEIM, AND S. L. GORBACH 351
Role of intestinal microflora in colonic pseudo-obstruction complicating jejunoileal bypass R. E. BARRY, A. W. CHOW, AND J. BILLESDON 356
Evidence for a transmissible factor in Crohn's disease B. J. DONNELLY, P. V. DELANEY, AND T. M. HEALY 360
Nodular lymphoid hyperplasia of the bowel in primary hypogammaglobulinaemia: study of *in vivo* and *in vitro* lymphocyte function A. D. B. WEBSTER, S. KENWRIGHT, J. BALLARD, M. SHINER, G. SLAVIN, A. J. LEVI, G. LOEWI, AND G. L. ASHERSON 364
Enterochromaffin cells in the duodenal mucosa of children with coeliac disease D. N. CHALLACOMBE AND K. ROBERTSON 373
Immunohistochemical identification of lysozyme in intestinal lesions in ulcerative colitis and Crohn's disease M. KLOCKARS, S. REITAMO, J. J. REITAMO, AND C. MÖLLER 377
Simple method for the preparation of single cell suspensions from normal and tumorous rat colonic mucosa V. PERRET, R. LEV, AND W. PIGMAN 382

The British Society of Gastroenterology	398
Notes and activities	428
Books	428

No. 6 JUNE 1977

Effect of the prostaglandin precursor, arachidonic acid, on histamine stimulated gastric secretion in the conscious dog, and observations on the effect of inhibiting endogenous prostaglandin synthesis M. E. CONOLLY, P. R. BIECK, N. A. PAYNE, B. ADKINS, AND J. A. OATES	429
Nocturnal metiamide treatment in the management of healed duodenal ulceration M. H. THOMPSON, C. W. VENABLES, P. A. SMITH, AND W. WALKER	438
Calcium stimulation of gastrin and gastric acid secretion: effect of small doses of calcium carbonate J. BEHAR, M. HITCHINGS, AND R. D. SMYTH	442
Post-vagotomy insulin test: improved predictability of ulcer recurrence after corrections for height and collection errors N. K. MAYBURY, R. G. FABER, AND M. HOBSLEY	449
Effect of lysolecithin on gastric mucosal structure and potential difference R. ORCHARD, K. REYNOLDS, B. FOX, R. ANDREWS, R. A. PARKINS, AND A. G. JOHNSON	457
Gastric emptying in diabetic autonomic neuropathy I. W. CAMPBELL, R. C. HEADING, P. TOTHILL, T. A. S. BUIST, D. J. EWING, AND B. F. CLARKE	462
Effect of secretin on plasma motilin in man P. MITZNEGG, S. R. BLOOM, W. DOMSCHKE, W. H. HAECKI, S. DOMSCHKE, D. BELOHLAVEK, E. WÜNSCH, AND L. DEMLING	468
Lymphocyte populations in liver biopsy specimens from patients with chronic liver disease J. SANCHEZ-TAPIAS, H. C. THOMAS, AND S. SHERLOCK	472
Hepatic damage associated with mineral oil deposits R. W. BLEWITT, K. BRADBURY, M. J. GREENALL, AND HEATHER BURROW	476
Intestinal perfusion studies in tropical sprue. 2. Movement of water and electrolytes M. D. HELLIER, PREMA BHAT, J. ALBERT, AND S. J. BAKER	480
Jejunal mucosal gamma glutamyl transferase activity in coeliac disease M. J. FAIRMAN, B. B. SCOTT, C. TOOTHILL, AND M. S. LOSOWSKY	484
Anal pressure studies in spinal patients I. C. WHEATLEY, K. J. HARDY, AND J. DENT	488
Progress report Oral ulceration and Behçet's syndrome THOMAS LEHNER	491
Notes and activities	512
Books	512

No. 7 JULY 1977

Effects of proximal gastric vagotomy (PGV) followed by total vagotomy (TV) on postprandial and fasting myoelectrical activity of the canine stomach and duodenum. P. AEBERHARD AND B. S. BEDI	515
Clinical picture of peptic ulceration diagnosed endoscopically M. C. SHEPPARD, G. K. T. HOLMES, AND R. COCKEL	524
Double-blind trial of cholesthramine in post-vagotomy diarrhoea V. M. DUNCOMBE, T. D. BOLIN, AND A. E. DAVIS	531
Correlation between manometric and pH tests for gastro-oesophageal reflux C. STANCIU, R. C. HOARE, AND J. R. BENNETT	536
Gastric emptying of barium sulphate suspension compared with that of water N. RAMSBOTTOM, M. T. KNOX, AND J. N. HUNT	541
Cholelithiasis in subjects with hypercalcaemia and primary hyperparathyroidism detected in a health screening T. CHRISTENSSON AND K. EINARSSON	543
Behaviour of ^{125}I-fibrinogen and ^{131}I-albumin in experimental galactosamine-induced hepatitis I. MAHN, H. MERKEL, E. L. SATTLER, AND G. MÜLLER-BERGHAUS	547
Functional renal failure and haemorrhagic gastritis associated with endotoxaemia in cirrhosis C. CLEMENTE, J. BOSCHE, J. RODÉS, V. ARROYO, A. MAS, AND S. MARAGALL	556
Hyperoxaluria correlates with fat malabsorption in patients with sprue G. B. MCDONALD, D. L. EARNEST, AND W. H. ADMIRAND	561
Effect of intraluminal oxygen on endotoxin absorption in experimental occlusion of the superior mesenteric artery K. SHUTE	567
Variation in the incidence of diverticular disease within the city of Edinburgh M. A. EASTWOOD, JEAN SANDERSON, S. J. POCOCK, AND W. D. MITCHELL	571
Double-blind placebo-controlled study of loperamide (Imodium) in chronic diarrhoea caused by ileocolic disease or resection P. MAINGUET AND R. FIASSE	575
Progress report Cancer of the pancreas R. G. H. MORGAN AND K. G. WORMSLEY	580
Notes and activities	597
Books	597

No. 8 AUGUST 1977

Page

Effect of prolonged feeding with chenodeoxycholic acid on bile in patients with and without gallstones M. C. BATESON, P. E. ROSS, J. MURISON, AND I. A. D. BOUCHIER 599
Postprandial serum bile acids in healthy man B. ANGELIN AND I. BJÖRKHEM 606
Percutaneous cholangiography with the Okuda needle G. DE B. HINDE, P. M. SMITH, AND J. L. CRAVEN 610
Calcitonin and exocrine pancreatic secretion in man: inhibition of enzymes stimulated by CCK-pancreozymin, caerulein, or calcium—no response to vagal stimulation J. HOTZ, H. GOEBELL, AND R. ZIEGLER 615
Exocrine pancreatic response to the venom of the scorpion, *Tityus trinitatis* C. BARTHOLOMEW, J. J. MURPHY, K. F. MCGEENEY, AND O. FITZGERALD 623
Outcome of gastric carcinoma detected by gastric mass survey in Japan E. KANEKO, T. NAKAMURA, N. UMEDA, M. FUJINO, AND H. NIWA 626
Cimetidine and the gastric mucosal barrier G. S. KENYON, I. F. ANSELL, AND D. C. CARTER 631
Double-blind clinical trial on gastroduodenal ulcer healing with prostaglandin E_2 analogues K. GIBINSKI, J. RYBICKA, E. MIKOS, AND A. NOWAK 636
Electrical assessment of functional lactase activity in conscious man N. W. READ, R. J. DAVIES, C. D. HOLDSWORTH, AND R. J. LEVIN 640
Selective IgA deficiency and Crohn's disease: report of two cases H. J. F. HODGSON AND D. P. JEWELL 644
IgA class reticulin antibodies in relatives of patients with coeliac disease E. G. MALLAS, N. WILLIAMSON, B. T. COOPER, AND W. T. COOKE 647
Internal sphincter and the nature of haemorrhoids B. D. HANCOCK 651
Sphincter denervation in anorectal incontinence and rectal prolapse A. G. PARKS, M. SWASH, AND H. URICH 656
Effect of capsaicin on electrical slow waves in the isolated cat colon S. ANURAS, J. CHRISTENSEN, AND D. TEMPLEMAN 666
Carbohydrate content of endoscopic gastric biopsies in carcinoma of the stomach G. MACHADO, J. R. CLAMP, AND A. E. READ 670
Sexual problems among married ileostomists W. R. BURNHAM, J. E. LENNARD-JONES, AND B. N. BROOKE 673

Short reports

Colonoscopy and bacteraemia G. P. COUGHLIN, R. N. BUTLER, M. H. ALP, AND A. KERR GRANT 678
Metronidazole in the treatment of chronic proctitis: a controlled trial P. S. DAVIES, J. RHODES, R. V. HEATLEY, AND E. OWEN 680
Notes and activities 682
Books 682

No. 9 SEPTEMBER 1977

Potassium and magnesium depletion in patients with cirrhosis on maintenance diuretic regimes P. G. WHEELER, T. SMITH, C. GOLINDANO, A. N. ALAM, S. P. WILKINSON, C. J. EDMONDS, AND ROGER WILLIAMS 683
Can hepatic coma be caused by a reduction of brain noradrenaline or dopamine? L. ZIEVE AND R. L. OLSEN 688
Serum cerebrospinal fluid, and brain levels of bile acids in patients with fulminant hepatic failure B. BRON, R. WALDRAN, D. B. A. SILK, AND ROGER WILLIAMS 692
Assessment of the plasma disappearance of cholyl-l ^{14}C-glycine as a test of hepatocellular disease B. THJODLEIFSSON, S. BARNES, A. CHITRANUKROH, BARBARA H. BILLING, AND SHEILA SHERLOCK 697
Mechanism and specificity of increased amylase/creatinine clearance ratio in pancreatitis A. MARTEN, D. BEALES, AND E. ELIAS 703
Postprandial gastro-oesophageal reflux in healthy people M. D. KAYE 709
Somatostatin therapy of acute experimental pancreatitis P. G. LANKISCH, H. KOOP, K. WINCKLER, U. R. FÖLSCH, AND W. CREUTZFELDT 713
Carbenoxolone sodium capsules in the treatment of duodenal ulcer. An endoscopic controlled trial J. SAHEL *et al.* 717
Effect of carbenoxolone sodium on human gastric acid secretion J. H. BARON 721
Double-blind controlled trial of amylopectin sulphate (Depepsen) in the symptomatic treatment of duodenal ulcer J. H. BARON, R. J. N. GRIBBLE, D. J. HOLDSTOCK, AND J. J. MISIEWICZ 723
Gastric emptying of wholemeal and white bread D. S. GRIMES AND J. GODDARD 725
Bile acid studies in uncomplicated Crohn's disease G. VANTRAPPEN, Y. GHOOS, P. RUTGEERTS, AND J. JANSSENS 730
^{14}C-glycocholate test in Crohn's disease—its value in assessment and treatment J. H. B. SCARPELLO AND G. E. SLADEN 736
Appraisal of the ^{14}C-glycocholate acid test with special reference to the measurement of faecal ^{14}C excretion J. H. B. SCARPELLO AND G. E. SLADEN 742
Humoral immune system in inflammatory bowel disease: 1. Complement levels H. J. F. HODGSON, B. J. POTTER, AND D. P. JEWELL 749
Adynamic bowel syndrome P. PURI, B. D. LAKE, AND H. H. NIXON 754

Progress report Non-surgical removal of common bile duct stones M. CLASSEN AND F. W. OSSENBERG 764
Notes and activities 770
Books 770

Contents

No. 10 OCTOBER 1977

Correlation of variations in intraluminal pressure and potential differences in the perfused colon J.-G. POSTAIRE, J. GERARD, G. DEVROEDE, AND N. VAN HOUTTE 771

Immunohistochemistry of carcinoembryonic antigen: characterisation of cross-reactions with other glycoproteins P. ISAACSON AND MARY A. JUDD 779

Carcinoembryonic antigen (CEA) in the normal human small intestine: a light and electron microscopic study P. ISAACSON AND MARY A. JUDD 786

Use of an elemental diet (Vivonex) in the management of bile acid-induced diarrhoea L. M. NELSON, H. A. CARMICHAEL, R. I. RUSSELL, AND S. T. ATHERTON 792

Stagnant loop syndrome in patients with continent ileostomy (intra-abdominal ileal reservoir) H. SCHJØNSBY, J. F. HALVORSEN, T. HOFSTAD, AND N. HOVDENAK 795

Myopathy in Whipple's disease M. SWASH, M. S. SCHWARTZ, M. J. VANDENBURGH, AND D. J. POLLOCK 800

Effects of long chain fatty acids on solute absorption: perfusion studies in the human jejunum H. V. AMMON, P. J. THOMAS, AND S. F. PHILLIPS 805

Jejunal villous atrophy and granulomatous inflammation responding to a gluten-free diet A. BJØRNEKLETT, O. FAUSA, S. B. REFSUM, H. TORSVIK, AND H. SIGSTAD 814

Gastric epithelial cell turnover, mucus production, and healing of gastric ulcers with carbenoxolone W. DOMSCHKE, S. DOMSCHKE, J. HAGEL, L. DEMLING, AND D. N. CROFT 817

Effect of histamine receptor antagonists on bile damage to the gastric mucosa of canine Heidenhain pouches W. D. W. REES, J. RHODES, M. H. WHEELER, E. M. MEEK, B. WILLIAMS, AND R. G. NEWCOMBE 821

Maximum acid output to graded doses of pentagastrin and its relation to parietal cell mass in Chinese patients with duodenal ulcer F. C. Y. CHENG, S. K. LAM, AND G. B. ONG 827

Effect of cigarette smoking on the lower oesophageal sphincter D. K. CHATTOPADHYAY, M. G. GREANEY, AND T. T. IRVIN 833

Electron probe microanalysis in the study of gallstones J. M. BEEN, P. M. BILLS, AND D. LEWIS 836

Progress report Mechansim of hypogonadism in cirrhotic males J. R. B. GREEN 843

Notes and activities 854

Books 854

No. 11 NOVEMBER 1977

Anatomy and radiology of the areae gastricae C. E. MACKINTOSH AND L. KREEL 855

Unstirred layer and kinetics of electrogenic glucose absorption in the human jejunum *in situ* N. W. READ, D. C. BARBER, R. J. LEVIN, AND C. D. HOLDSWORTH 865

Role of gastrointestinal hormones in the response to massive resection of the small bowel A. A. B. BARROS D'SA AND K. D. BUCHANAN 877

Increased tissue concentrations of 5-hydroxytroptamine in the duodenal mucosa of patients with coeliac disease D. N. CHALLACOMBE, P. D. DAWKINS, AND P. BAKER 882

Immunoglobulins in the jejunal mucosa in adult coeliac disease and dermatitis herpetiformis after the reintroduction of dietary gluten M. LANCASTER-SMITH, SUSAN JOYCE, AND PARVEEN KUMAR 887

Nippostrongylus brasiliensis infection in the rat: effect of iron and protein deficiency and dexamethasone on the efficacy of benzimidazole anthelmintics V. M. DUNCOMBE, T. D. BOLIN, A. E. DAVIS, AND J. D. KELLY 892

Platelet function in fulminant hepatic failure and effect of charcoal haemoperfusion M. J. WESTON, P. G. LANGLEY, M. H. RUBIN, M. A. HANID, P. MELLON, AND ROGER WILLIAMS 897

Serum bile acids in the diagnosis of hepatobiliary disease C. R. PENNINGTON, P. E. ROSS, AND I. A. D. BOUCHIER 903

Association of abnormal fibrin polymerisation with severe liver disease G. GREEN, L. POLLER, JEAN M. THOMSON, AND I. W. DYMOCK 909

Inhibitory effect of various cytostatics and cycloheximide on acute experimental pancreatitis in rats L. KORBOVÁ, J. KOHOUT, F. MALIŠ, V. BALAŠ, J. ČIŽKOVÁ, J. MAREK, AND A. ČIHÁK 913

Technique Device for obtaining multiple simultaneous samples of intestinal contents during perfusion studies in man J. W. MATSESHE, J -R. MALAGELADA, AND S. F. PHILLIPS 919

Progress report Intraepithelial lymphocytes of the small intestine ANNE FERGUSON 921

Notes and activities 938

Books 938

The British Society of Gastroenterology 940

No. 12 DECEMBER 1977

IgA and IgG reticulin antibodies in coeliac and non-coeliac patients O. E. EADE, R. S. LLOYD, CELIA LANG, AND R. WRIGHT 991

Localization of e-antigen in nuclei of hepatocytes in HBsAg-positive liver diseases W. ARNOLD, J. O. NIELSEN, F. HARDT, AND K. H. MEYER ZUM BÜSCHENFELDE 994

Immunofluorescence detection of new antigen-antibody system (δ/anti-δ) associated to hepatitis B virus in liver and in serum of HBsAg carriers M. RIZZETTO, M. G. CANESE, S. ARICÓ, O. CRIVELLI, C. TREPO, F. BONINO, AND G. VERME 997

T-lymphocyte cytotoxicity to HBsAG-coated target cells in hepatitis B virus infection A. ALBERTI, G. REALDI, F. BORTOLOTTI, AND A. M. RIGOLI	1004
K-lymphocytes (killer-cells) in Crohn's disease and acute virus B-hepatitis R. ECKHARDT, P. KLOOS, M. P. DIERICH, AND K. H. MEYER ZUM BÜSCHENFELDE	1010
Reduction in peripheral blood K cells and activated T cells in primary biliary cirrhosis G. P. SANDILANDS, R. N. M. MACSWEEN, KATHLEEN G. GRAY, R. J. HOLDEN, P. MILLS, FIONA M. REID, MAIR A. THOMAS, AND G. WATKINSON	1017
Pathophysiology of hypotension in patients with fulminant hepatic failure P. N. TREWBY AND ROGER WILLIAMS	1021
Clinical study of liver blood flow in man measured by ^{133}Xe clearance after portal vein injection S. B. SHERRIFF, R. C. SMART, AND I. TAYLOR	1027
Chronic laxative abuse associated with pancreatic islet cell hyperplasia M. LESNA, A. N. HAMLYN, C. W. VENABLES, AND C. O. RECORD	1032
Qualitative and quantitative evaluation of internal anal sphincter function in the newborn V. E. BOSTON, S. CYWES, AND M. R. Q. DAVIES	1036
Policy of local excision for early cancer of the colorectum B. C. MORSON, H. J. R. BUSSEY, AND S. SAMOORJAN	1045
Giant sigmoid diverticulum: clinical and radiological features D. R. FOSTER AND B. ROSS	1051
Changes in the plasma clearance and protein binding of carbenoxolone with age, and their possible relationship with adverse drug effects M. J. HAYES, MARGARET SPRACKLING, AND M. J. S. LANGMAN	1054
Short report Failure of glucagon to influence ion transport across human jejunal and ileal mucosa *in vitro* P. E. T. ISAACS AND L. A. TURNBERG	1059
Progress report Transplantation of insulin-secreting tissues R. C. KARL, D. W. SCHARP, W. F. BALLINGER, AND P. E. LACY	1062
Notes and activities	1073
Books	1073
Index to Volume XVIII	1074

Volume XVIII General Index

Acid response to fundic distension, effect of atropine and proximal gastric vagotomy, **303**

ADKINS, B. *See* CONOLLY, M. E., BIECK, P. R., *et al.*

ADMIRAND, W. H. *See* MCDONALD, G. B., EARNEST, D. L., *et al.*

Adynamic bowel syndrome, case with disturbance of cholinergic innervation, **754**

AEBERHARD, P., and BEDI, B. S.: Effects of proximal gastric vagotomy followed by total vagotomy on postprandial and fasting myoelectrical activity of the canine stomach and duodenum, **515**

Africa, East, spirits from, search for volatile nitrosamines in, **301**

ALAM, A. N. *See* WHEELER, P. G., SMITH, T., *et al.*

ALBERT, J. *See* HELLIER, M. D., BHAT, P., *et al.*

ALBERTI, A., REALDI, G., BORTOLOTTI, F., and RIGOLI, A. M.: T-lymphocyte cytotoxicity to HBsAG-coated target cells in hepatitis B virus infection, **1004**

ALBREY, M. *See* MITCHELL, J. D., LAMBETH, L. A., *et al.*

Albumin, ^{131}I-albumin and ^{125}I-fibrinogen, behaviour in experimental galactosamine-induced hepatitis, **547**

ALEXANDER-WILLIAMS, J. *See* HOARE, A. M., JONES, E. L., *et al.*

Alkaline phosphatase, intestinal, in diagnosis of liver disease, **274**

ALLAN, R. N. *See* DUNNE, W. T., COOKE, W. T., *et al.*

ALP, M. H. *See* COUGHLIN, G. P., BUTLER, R. N., *et al.*

AMMON, H. V., THOMAS, P. J., and PHILLIPS, S. F.: Effects of long chain fatty acids on solute absorption: perfusion studies in the human jejunum, **805**

Amylase-creatinine clearance ratio after biliary surgery, **16**

——-——-——, increased, in pancreatitis, mechanism and specificity of, **703**

Amylopectin sulphate (Depepsen) in symptomatic treatment of duodenal ulcer, trial of, **723**

Anal sphincter, denervation in anorectal incontinence and rectal prolapse, **656**

—— ——, internal, activity of, relation to symptoms and other characteristics of haemorrhoids, **651**

—— ——, ——, function in newborn, qualitative and quantitative evaluation of, **1036**

—— —— pressure studies in spinal cord lesions, **488**

ANDREWS, R. *See* ORCHARD, R., REYNOLDS, K., *et al.*

ANGELIN, B., and BJÖRKHEM, I.: Postprandial serum bile acids in healthy man: evidence for differences in absorptive pattern between individual bile acids, **606**

Anorectal incontinence and rectal prolapse, sphincter denervation in, **656**

ANSELL, I. F. *See* KENYON, G. S., ANSELL, I. F., *et al.*

Anthelmintics, benzimidazole, efficacy in *Nippostrongylus brasiliensis* infection in rat, effect of iron and protein deficiency and dexamethasone, **892**

Antibodies, reticulin, IgA and IgG, in coeliac and non-coeliac patients, **991**

——, ——, —— class of, in relatives of coeliac disease patients, **647**

—— to *E. coli* and immunoglobulins in cirrhosis, correlation with hepatic morphology, **28**

—— to pancreatic duct cells in Sjögren's syndrome and rheumatoid arthritis, **311**

Antigen, carcinoembryonic, immunohistochemistry and characterisation of cross-reactions with other glycoproteins, **779**

——, ——, in normal small intestine, light and electron microscopic study of, **786**

——, e, localisation in nuclei of hepatocytes in HBsAg-positive liver disease, **994**

Antigen-antibody system, new (δ/anti-δ), associated with hepatitis B virus in liver and serum of HBsAg carriers immunofluorescence detection of, **997**

Antigens, HLA, in oral ulceration, **499**

ANURAS, S., CHRISTENSEN, J., and TEMPLEMAN, D.: Effect of capsaicin on electrical slow waves in the isolated cat colon, **666**

APPLEYARD, A. *See* HERMON-TAYLOR, J., PERRIN, J., *et al.*

Arachidonic acid, effect on histamine stimulated gastric secretion in conscious dogs, comparison with prostaglandin E_2, **429**

Areae gastricae in gastric mucosa, anatomy and radiology of, **855**

ARICÒ, S. *See* RIZZETTO, M., CANESE, M. G., *et al.*

ARNOLD, R. *See* EBERT, R., ARNOLD, R., *et al.*

ARNOLD, W., NIELSEN, J. O., HARDT, F., and MEYER ZUM BÜSCHENFELDE, K. H.: Localisation of e-antigen in nuclei of hepatocytes in HBsAg-positive liver diseases, **994**

ARROYO, V. *See* CLEMENTE, C., BOSCH J. *et al.*

Arthritis rheumatoid, and Sjögren's syndrome, antibodies to pancreatic duct cells in, **311**

ARVANITAKIS, C., CHEN, G. H., FOLSCROFT, J., and GREENBERGER, N. J.: Effect of aspirin on intestinal absorption of glucose, sodium, and water in man, **187**

ASHERSON, G. L. *See* WEBSTER, A. D. B., KENWRIGHT, S., *et al.*

Aspirin, effect on intestinal absorption of glucose, sodium and water, **187**

ATHERTON, S. T. *See* NELSON, L. M., CARMICHAEL, H. A., *et al.*

Atropine and cimetidine administration, oral, 24-hour intragastric acidity and nocturnal acid secretion in duodenal ulcer during, **85**

—— and proximal gastric vagotomy, effect on acid response to fundic distension, **303**

Bacteraemia and colonoscopy, **678**

Bacteria, flora, and bile salt deconjugation, in upper jejunum and mechanism of malabsorption in giardiasis, **176**

——, intestinal, role in colonic pseudo-obstruction complicating jejunoileal bypass, **356**

BAKER, P. *See* CHALLACOMBE, D. N., DAWKINS, P. D., *et al.*

BAKER, S. J. *See* HELLIER, M. D., BHAT, P., *et al.*

BALAŠ, V. *See* KORBOVÁ, L., KOHOUT, J., *et al.*

BALLARD, J. *See* WEBSTER, A. D. B., KENWRIGHT, S., *et al.*

BALLINGER, W. F. *See* KARL, R. C., SCHARP, D. W., *et al.*

BARBER, D. C. *See* READ, N. W., BARBER, D. C., *et al.*

Barium sulphate suspension and water, gastric emptying of, comparison of, **541**

BARLTROP, D. *See* GACS, G., and BARLTROP, D.

BARNES, S. *See* THJODLEIFSSON, B., BARNES, S., *et al.*

BARON, J. H.: Effect of carbenoxolone sodium on human gastric acid secretion, **721**

——, GRIBBLE, R. J. N., HOLDSTOCK, D. J., and MISIEWICZ, J. J.: Double-blind controlled trial of amylopectin sulphate (Depepsen) in the symptomatic treatment of duodenal ulcer, **723**

——. *See also* HAMER, D. B., PRICE, A. B., *et al.*

BARROS D'SA, A. A. B., and BUCHANAN, K. D.: Role of gastrointestinal hormones in the response to massive resection of the small bowel, **877**

BARRY, R. E., CHOW, A. W., and BILLESDON, J.: Role of intestinal microflora in colonic pseudo-obstruction complicating jejunoileal bypass, **356**

BARTHOLOMEW, C., MURPHY, J. J., MCGEENEY, K. F., and FITZGERALD, O.: Exocrine pancreatic response to the venom of the scorpion, *Tityus trinitatis*, **623**

BATESON, M. C., ROSS, P. E., MURISON, J., and BOUCHIER, I. A. D.: Effect of prolonged feeding with chenodeoxycholic acid on bile in patients with and without gallstones, **599**
BEALES, D. *See* MARTEN, A., BEALES, D., *et al.*
BEDI, B. S. *See* AEBERHARD, P., and BEDI, B. S.
BEEN, J. M., BILLS, P. M., and LEWIS, D.: Electron probe microanalysis in the study of gallstones, **836**
BEHAR, J., HITCHINGS, M., and SMYTH, R. D.: Calcium stimulation of gastrin and gastric acid secretion: effect of small doses of calcium carbonate, **442**
Behçet's syndrome and oral ulceration, **491**
BELOHLAVEK, D. *See* HAECKI, W. H., BLOOM, S. R., *et al.*
——. *See* MITZNEGG, P., BLOOM, S. R., *et al.*
BENNETT, J. R. *See* STANCIU, C., HOARE, R. C., *et al.*
Benzimidazole anthelmintics, efficacy in *Nippostrongylus brasiliensis* infection in rat, effect of iron and protein deficiency and dexamethasone, **892**
BERGEGÅRDH, S. *See* GRÖTZINGER, U., BERGEGÅRDH, S., *et al.*
BETTELHEIM, K. A. *See* TABAQCHALI, S., HOWARD, A., *et al.*
BHAT, P. *See* HELLIER, M. D., BHAT, P., *et al.*
Bicarbonate response, pancreatic, to exogenous secretin, and plasma secretin levels, **191**
BIECK, P. R. *See* CONOLLY, M. E., BIECK, P. R., *et al.*
Bile acid studies in uncomplicated Crohn's disease, **730**
—— acids and biliary lipids, speed of change with chenodeoxycholic acid, and feasibility of intermittent therapy, **7**
—— ——, diarrhoea induced by, elemental diet (Vivonex) in management of, **792**
—— ——, serum, cerebrospinal fluid and brain levels in fulminant hepatic failure, **692**
—— ——, ——, in diagnosis of hepatobiliary disease, **903**
—— ——, ——, postprandial, in healthy subjects, evidence for differences in individual absorptive patterns, **606**
—— damage to gastric mucosa of canine Heidenhain pouches, effect of histamine receptor antagonists, **821**
—— duct, common, gallstones in, non-surgical removal of, **760**
—— in patients with and without gallstones, effect of prolonged chenodeoxycholic acid therapy, **599**
—— salt deconjugation and bacterial flora in upper jejunum and mechanism of malabsorption in giardiasis, **176**
Biliary cirrhosis, primary, reduction in peripheral blood K cells and activated T cells in, **1017**
—— lipids and bile acids, speed of change with chenodeoxycholic acid, and feasibility of intermittent therapy, **7**
—— surgery, amylase creatinine clearance ratio after, **16**
BILLESDON, J. *See* BARRY, R. E., CHOW, A. W., *et al.*
BILLING, B. H. *See* THJODLEIFSSON, B., BARNES, S., *et al.*
BILLS, P. M. *See* BEEN, J. M., BILLS, P. M., *et al.*
Biopsies, gastric, endoscopic, in carcinoma of stomach, carbohydrate content of, **670**
Biopsy specimens, liver, in chronic liver disease, lymphocyte populations in, **472**
BJÖRKHEM, I. *See* ANGELIN, B., and BJÖRKHEM, I.
BJØRNEBOE, M. *See* PRYTZ, H., BJØRNEBOE, M., *et al.*
BJØRNEKLETT, A., FAUSA, O., REFSUM, S. B., TORSVIK, H., and SIGSTAD, H.: Jejunal villous atrophy and granulomatous inflammation responding to a gluten-free diet, **814**
BLACKWELL, R. J. *See* VICARY, F. R., CUSICK, G., *et al.*
BLENDIS, L. M. *See* RUDDELL, W. S. J., BLENDIS, L. M., *et al.*
BLEWITT, R. W., BRADBURY, K., GREENALL, M. J., and BURROW, H.: Hepatic damage associated with mineral oil deposits, **476**
Blind loop syndrome. *See* Stagnant loop syndrome
Blood flow, hepatic, measured by ^{133}Xe clearance after portal vein injection, clinical study of, **1027**
——, peripheral, K cells and activated T cells in, reduction in primary biliary cirrhosis, **1017**
BLOOM, S. R. *See* HAECKI, W. H., BLOOM, S. R., *et al.*
——. *See* MITZNEGG, P., BLOOM, S. R., *et al.*
BOLIN, T. D., DAVIS, A. E., CUMMINS, A. G., DUNCOMBE, V. M., and KELLY, J. D.: Effect of iron and protein deficiency on the expulsion of *Nippostrongylus brasiliensis* from the small intestine of the rat, **182**
——. *See also* DUNCOMBE, V. M., BOLIN, T. D., *et al.*
BONINO, F. *See* RIZZETTO, M., CANESE, M. G., *et al.*
Book notes, **84, 170, 258, 342, 428, 512, 597, 682, 770, 854, 938, 1073**
BORTOLOTTI, F. *See* ALBERTI, A., REALDI, G., *et al.*
BOSCH, J. *See* CLEMENTE, C., BOSCH, J., *et al.*
BOSTON, V. E., CYWES, S., and DAVIES, M. R. Q.: Qualitative and quantitative evaluation of internal anal sphincter function in the newborn, **1036**

BURROW, H. *See* BLEWITT, R. W., BRADBURY, K., *et al.*
BUSSEY, H. J. R. *See* MORSON, B. C., BUSSEY, H. J. R., *et al.*
BUTLER, R. N. *See* COUGHLIN, G. P., BUTLER, R. N., *et al.*

^{14}C, faecal excretion, measurement in ^{14}C-glycocholate test, **742**
Caerulein stimulation, effect of calcitonin on exocrine pancreatic secretion during, **615**
Calcitonin, effect on exocrine pancreatic secretion during stimulation by CCK-pancreozymin, caerulein or calcium or vagal stimulation, **615**
Calcium carbonate, small doses of, stimulation of serum gastrin and gastric acid secretion by, **442**
—— gluconate administration, oral, effect on gastric acid secretion and serum gastrin concentration, **111**
——, secretin and meal stimulated increase in serum gastrin, comparative value in diagnosis of Zollinger-Ellison syndrome, **128**
—— soap formation, significance for calcium absorption in rat, **64**
—— stimulation, effect of calcitonin on exocrine pancreatic secretion during, **615**
CAMPBELL, I. W., HEADING, R. C., TOTHILL, P., BUIST, T. A. S., EWING, D. J., and CLARKE, B. F.: Gastric emptying in diabetic autonomic neuropathy, **462**
CANESE, M. G. *See* RIZZETTO, M., CANESE, M. G., *et al.*
Capsaicin, effect on electrical slow waves in isolated cat colon, **666**
Carbenoxolone healing of gastric ulcers, gastric epithelial cell turnover and mucus production, **817**

——, plasma clearance and protein binding, age changes and possible relationship to adverse drug effects, **1054**
—— sodium capsules in treatment of duodenal ulcer, endoscopic trial of, **717**
—— sodium, effect on gastric acid secretion, **721**
Carbohydrate content of endoscopic gastric biopsies in carcinoma of stomach, **670**
Carcinoembryonic antigen, immunohistochemistry and characterisation of cross-reactions with other glycoproteins, **779**
—— —— in normal small intestine, light and electron microscopic study of, **786**
Carcinoma, colonic, grafted, in rats, immunoprophylaxis and immunotherapy of, **232**
——, colorectal, early, local excision for, **1045**
——, ——, lactate dehydrogenase isoenzyme pattern in uninvolved mucosa in, **45**
——, gastric, carbohydrate content of endoscopic gastric biopsies in, **670**
——, ——, detected by gastric mass survey in Japan, outcome of, **626**
—— of pancreas, **580**
CARMICHAEL, H. A. *See* NELSON, L. M., CARMICHAEL, H. A., *et al.*
CARTER, D. C. *See* KENYON, G. S., ANSELL, I. F., *et al.*
——. *See* OSBORNE, D. H., LENNON, J., *et al.*
Cell suspensions, single, from normal and tumourous rat colonic mucosa, preparation of, **382**
Cerebrospinal fluid, serum and brain levels of bile acids in fulminant hepatic failure, **692**
CHADWICK, V. S. *See* FAIRCLOUGH, P. D., FEEST, T. G. *et al.*
CHALLACOMBE, D. N., DAWKINS, P. D., and BAKER, P.: Increased tissue concentrations of 5-hydroxytryptamine in the duodenal mucosa of patients with coeliac disease, **882**
——, and ROBERTSON, K.: Enterochromaffin cells in the duodenal mucosa of children with coeliac disease, **373**
Charcoal haemoperfusion, effect on platelet function in fulminant hepatic failure, **897**
CHATTOPADHYAY, D. K., GREANEY, M. G., and IRVIN, T. T.: Effect of cigarette smoking on the lower oesophageal sphincter: assessment of normal and symptomatic patients using the rapid pull-through technique of oesophageal manometry, **833**
CHEN, G. H. *See* ARVANITAKIS, C., CHEN, G. H., *et al.*
CHENG, F. C. Y., LAM, S. K., and ONG, G. B.: Maximum acid output to graded doses of pentagastrin and its relation to parietal cell mass in Chinese patients with duodenal ulcer, **827**
Chenodeoxycholic acid, speed of change in biliary lipids and bile acids with, and feasibility of intermittent therapy, **7**
—— —— therapy, prolonged, effect on bile in patients with and without gallstones, **599**
CHIARAMONTE, M., HEATHCOTE, J., CREES, M., and SHERLOCK, S.: Detection, by three techniques, of hepatitis B surface antigen (HBsAg) and determination of HBsAg and anti-HBs titres in patients with chronic liver disease, **1**
Chinese with duodenal ulcer, maximum acid output response to graded doses of pentagastrin and relation to parietal cell mass in, **827**
CHITRANUKROH, A. *See* THJODLEIFSSON, B., BARNES, S., *et al.*
Cholangiography, percutaneous, with Okuda needle in obstructive jaundice, **610**
Cholangiopancreatography, retrograde, endoscopic, **316**
Cholecystokinin-pancreozymin stimulation, effect of calcitonin on exocrine pancreatic secretion during, **615**
Cholelithiasis, incidence in hypercalcaemia and primary hyperparathyroidism detected in health screening, **543**
Cholestasis, chronic pancreatitis as cause of, **196**
Cholestyramine in post-vagotomy diarrhoea, trial of, **531**
Cholinergic innervation, disturbance of, in adynamic bowel syndrome, case of, **754**
Cholyl-1-^{14}C-glycine, plasma disappearance of, as test of hepatocellular disease, assessment of, **697**
CHOW, A. W. *See* BARRY, R. E., CHOW, A. W., *et al.*
CHRISTENSEN, J. *See* ANURAS, S., CHRISTENSEN, J., *et al.*
CHRISTENSSON, T., and EINARSSON, K.: Cholelithiasis in subjects with hypercalcaemia and primary hyperparathyroidism detected in a health screening, **543**
CHRISTOFFERSEN, P. *See* PRYTZ, H., BJØRNEBOE, M., *et al.*
ČIHÁK, A. *See* KORBOVÁ, L., KOHOUT, J., *et al.*
Cimetidine and atropine administration, oral, 24-hour intragastric acidity and nocturnal acid secretion in duodenal ulcer during, **85**
——, effect on gastric mucosal barrier, **631**
——, —— on lower oesophageal sphincter, **99**
Cirrhosis, biliary, primary, reduction in peripheral blood K cells and activated T cells in, **1017**
——, correlation between hepatic morphology and immunoglobulins and antibodies to *E. coli* in, **28**
——, functional renal failure and haemorrhagic gastritis associated with endotoxaemia in, **556**
——, hypogonadism in males with, mechanism of, **843**
—— patients on maintenance diuretic regimes, potassium and magnesium depletion in, **683**
ČÍŽKOVÁ, J. *See* KORBOVÁ, L., KOHOUT, J., *et al.*
CLAMP, J. R. *See* MACHADO, G., CLAMP, J. R., *et al.*
CLARK, M. L. *See* FAIRCLOUGH, P. D., FEEST, T. G., *et al.*
CLARKE, B. F. *See* CAMPBELL, I. W., HEADING, R. C., *et al.*
CLASSEN, M., and OSSENBERG, F. W.: Non-surgical removal of common bile duct stones, **760**

COCKEL, R. *See* SHEPPARD, M. C., HOLMES, G. K. T., *et al.*
Coeliac disease, adult, and dermatitis herpetiformis, immunoglobulins in jejunal mucosa after reintroduction of dietary gluten in, **887**
—— ——, enterochromaffin cells in duodenal mucosa of children with, **373**
—— ——, IgA and IgG reticulin antibodies in, **991**
—— ——, —— class reticulin antibodies in relatives of patients with, **647**
—— ——, increased tissue concentrations of 5-hydroxytryptamine in duodenal mucosa in, **882**
—— ——, jejunal mucosal γ-glutamyl transferase activity in, **484**
—— ——, unstirred layer in jejunum during kinetic studies of electrogenic glucose absorption in, computer interpretation of changes in, **871**
—— ——, —— —— —— —— —— —— —— —— —— ——
—— —— ——, measurement of thickness of, **865**
Colectomy, partial and subtotal, consequences in rat, **37**
Colitis, membranous, glucosamine synthetase activity of colonic mucosa in, **229**
——, ulcerative, and Crohn's disease, glucosamine synthetase activity of colonic mucosa in, **219**
——, ——, —— —— ——, intestinal lesions in, immunohistochemical identification of lysozyme in, **377**
——, ——, zinc in, therapeutic trial and plasma levels, **33**
Colon, carcinoma of, grafted, in rats, immunoprophylaxis and immunotherapy of, **232**
——, cat, isolated, effect of capsaicin on electrical slow waves in, **666**
——, Crohn's disease of, ileorectal anastomosis in, **236**
——, excluded, oxalate absorption from, effect of sodium chenodeoxycholate as mechanism for 'enteric' hyperoxaluria, **240**
——, mucosa of, glucosamine synthetase activity in membranous colitis, **229**
——, —— ——, —— —— —— in ulcerative colitis and Crohn's disease, **219**

——, —— ——, normal and tumourous, preparation of single cell suspensions from, **382**
——, perfused, intraluminal pressure and potential differences in, correlation of variations in, **771**
——, pseudo-obstruction of, complicating jejunoileal bypass, role of intestinal microflora in, **356**
——, sigmoid, diverticulum of, giant, clinical and radiological features of, **1051**
Colonoscopy and bacteraemia, **678**
Colorectal carcinoma, early, local excision for, **1045**
—— ——, lactate dehydrogenase isoenzyme pattern in uninvolved mucosa in, **45**
Coma, hepatic, not induced by reduction of brain noradrenaline or dopamine, **688**
Complement, serum levels in inflammatory bowel disease, **749**
COMPSTON, J. E., and CREAMER, B.: Plasma levels and intestinal absorption of 25-hydroxyvitamin D in patients with small bowel resection, **171**
Computer interpretation of changes in unstirred layer in jejunum during kinetic studies of electrogenic glucose absorption in coeliac disease, **871**

Hyperparathyroidism, primary, and hypercalcaemia detected in health screening, incidence of cholelithiasis in, **543**
Hypogammaglobulinaemia, primary, with nodular lymphoid hyperplasia of bowel, *in vivo* and *in vitro* lymphocyte function in, **364**
Hypogonadism in cirrhotic males, mechanism of, **843**
Hypotension in fulminant hepatic failure, pathophysiology of, **1021**

Ileocolic disease or resection, chronic diarrhoea due to, trial of loperamide in, **575**
Ileorectal anastomosis in Crohn's disease of colon, **236**
Ileostomists, married, sexual problems among (Ileostomy Association survey), **673**
Ileostomy, continent, stagnant loop syndrome in patients with, **795**
Ileum and jejunum, mucosa of, ion transport *in vitro* across, failure of glucagon to influence, **1059**
Immune responses to HBsAg and liver-specific lipoprotein in acute type B hepatitis, **250**
—— system, humoral. *See* Humoral immune system
Immunochemical features of serum cryoglobulin in chronic liver disease, **245**
Immunofluorescence detection of new antigen-antibody system (δ/anti-δ) associated with hepatitis B virus in liver and serum of HBsAg carriers, **997**
Immunofluorescent localisation of enterokinase in small intestine, **259**
Immunoglobulin A and G reticulin antibodies in coeliac and non-coeliac patients, **991**
—— —— class reticulin antibodies in relatives of coeliac disease patients, **647**
—— —— deficiency, selective, and Crohn's disease, 2 cases of, **644**
Immunoglobulins and antibodies to *E. coli* in cirrhosis, correlation with hepatic morphology, **28**
—— in jejunal mucosa in adult coeliac disease and dermatitis herpetiformis after reintroduction of dietary gluten, **887**
Immunohistochemical identification of lysozyme in intestinal lesions in ulcerative colitis and Crohn's disease, **377**
Immunohistochemistry of carcinoembryonic antigen and characterisation of cross-reactions with other glycoproteins, **779**
Immunological responses in oral ulceration, **497**
Immunoprophylaxis and immunotherapy of grafted rat colonic carcinoma, **232**
Immunoreactive gastric inhibitory polypeptide, serum levels, fasting and food stimulated, effect of glucagon, **121**
Imodium. *See* Loperamide
IMRIE, C. W., FERGUSON, J. C., and SOMMERVILLE, R. G.: Coxsackie and mumpsvirus infection in a prospective study of acute pancreatitis, **53**
Incontinence, anorectal, and rectal prolapse, sphincter denervation in, **656**
Insulin test, post-vagotomy, improved predictability of ulcer recurrence with, after corrections for height and collection errors, **449**
——, tissues secreting, transplantation of, **1062**
Intestinal alkaline phosphatase in diagnosis of liver disease, **274**
Intestine, large, adynamic bowel syndrome, case with disturbance of cholinergic innervation, **754**
——, small, absorption of glucose, sodium and water, effect of aspirin, **187**
——, ——, enterokinase in, immunofluorescent localisation of, **259**
——, ——, intraepithelial lymphocytes of, clinical application of cell counts, **929**
——, ——, —— ——, morphology and experimental immunology, **921**
——, ——, ischaemic strictures of, in Nigeria, **266**
——, ——, morphology of, disaccharidase activity and lactose tolerance tests, lack of correlation with continuing lactose intolerance during reinvestigation in children, **48**
——, ——, normal, carcinoembryonic antigen in, light and electron microscopic study of, **786**
——, ——, rat, *N. brasiliensis* expulsion from, effect of iron and protein deficiency, **182**
——, ——, resection of, massive, role of gastrointestinal hormones in response to, **877**
——, ——, —— ——, plasma levels and intestinal absorption of 25-hydroxyvitamin D in, **171**
Intestines, bacterial flora, role in colonic pseudo-obstruction complicating jejunoileal bypass, **356**
——, contents, device for obtaining multiple simultaneous samples during perfusion studies, **919**
——, disease, inflammatory, humoral immune system in—serum complement levels, **749**
——, ——, ——, K lymphocytes in, **1010**
——, gastric gland metaplasia in, **214**
——, 25-hydroxyvitamin D absorption, and plasma levels in small bowel resection, **171**
——, ion transport *in vitro*, **136**
——, lesions of, in ulcerative colitis and Crohn's disease, immunohistochemical identification of lysozyme in, **377**
——, lymphoid hyperplasia of, nodular, with primary hypogammaglobulinaemia, *in vivo* and *in vitro* lymphocyte function in, **364**
——, perfusion studies of water and electrolyte movement in tropical sprue, **480**
——, Whipple's disease with minimal involvement of, **152**
Intraabdominal ileal reservoir. *See* Ileostomy, continent
Intraepithelial lymphocytes of small intestine, clinical application of cell counts, **929**
—— —— —— —— ——, morphology and experimental immunology, **921**
Intragastric. *See* Gastric

Intraluminal oxygen, effect on endotoxin absorption in experimental occlusion of superior mesenteric artery, **567**
—— pressure and potential differences in perfused colon, correlation of variations in, **771**
—— —— changes in human and canine jejunum *in vivo*, relation to changes in transmural potential difference, **141**
Ion transport across jejunal and ileal mucosa *in vitro*, failure of glucagon to influence, **1059**
—— ——, intestinal, *in vitro* study of, **136**
Iron and protein deficiency and dexamethasone, effect on efficacy of benzimidazole anthelmintics in *Nippostrongylus brasiliensis* infection in rat, **892**
—— —— —— ——, effect on expulsion of *N. brasiliensis* from small intestine of rat, **182**

Index to Abstracts

Abdominal surgery, major, single dose cephalosporin prophylaxis in, **A412**
—— ——, sterility in, closed-system plastic surgical isolator for, **A412**
Abetalipoproteinaemia, clinical studies on, **A988**
Acetylcholine, intrinsic stores of, importance to action of metoclopramide, **A950**
Adriamycin induction of remission in hepatocellular carcinoma, **A954**
ADRIAN, T. E., *et al.*: PP in the assessment of pancreatic exocrine function, **A982**
AGGETT, P. J. A., *et al.*: Congenital pancreatic hypoplasia (Shwachman's syndrome), **A414**
Albumin, microaggregated, Kupffer cell uptake of, and liver blood flow in inflammatory bowel disease, **A401**
Alcohol and drugs as associated factors in primary acute pancreatitis, **A422**
——, liver disease induced by, drinking history and objective criteria for, **A403**
Alcoholic cirrhosis, mortality and hospital prevalence, **A968**
——, liver disease, comparison of features of, **A968**
AL-DEWACHI, H., *et al.*: Action of prednisolone on the small bowel mucosa, **A967**
ALLAN, R., and COOKE, W. T.: Evaluation of metronidazole in the management of Crohn's disease, **A422**
Alpha-. *See under* following word, e.g. Antitrypsin
Aluminium hydroxide management of bile salt diarrhoea, **A419**
Amino acid, insulin and glucagon imbalances in fulminant hepatic failure, **A953**
—— acids in plasma as indicator of hepatocellular dysfunction, **A402**
Ammonia, faecal, effect of dietary protein with and without added dietary fibre, **A411**
Amylase thermolability in diagnosis of acute pancreatitis and pancreatic pseudocysts, **A415**
Anal fissure, internal sphincter as cause of symptoms in, **A413**
—— sphincter denervation in idiopathic anorectal incontinence, **A414**
ANAND, B. S., *et al.*: Isolating the component of gluten which causes the mucosal damage in coeliac disease, **A408**
——, *et al.*: Specific immunofluorescence and immunoperoxidase reactions in the jejunal mucosa of coeliac subjects after challenge with a fraction of gluten, **A408**
Anastomosis dismantling of, after truncal vagotomy and gastroenterostomy, **A413**
ANDERSON. A. J., *et al.*: Kupffer cell uptake of microaggregated albumin: (a) in relation to liver blood flow; (b) in inflammatory bowel disease, **A401**
ANDRE, C., *et al.*: Varioliform gastritis or superficial hypertrophic gastritis, **A940**
Anorectal incontinence, idiopathic, denervation of anal sphincter in, **A414**
Antacids, common, sodium content and neutralising capacity of, estimation of, **A969**
Anthropometry in assessment of nutrition in surgical patients, comparison with total body nitrogen measurement, **A983**
Antibodies, DNA binding, in HBsAg positive and negative acute and chronic liver disease, **A978**
—— to human liver-specific membrane lipoprotein in chronic active hepatitis and chronic persistent hepatitis, radioimmunoassay for, **A978**
Antibody studies, fluorescent, in giardiasis, **A986**
Antigen, carcinoembryonic, pancreatic juice analysis and ERCP in diagnosis of pancreatic disease, **A980**
Antigens, absorption after oral immunisation and induction of systemic tolerance, **A945**
——, B-cell, in coeliac disease, **A409**
α,-Antitrypsin deficiency, type PiZ, in liver disease, prognosis in childhood, **A978**
Antrectomy and truncal vagotomy and proximal gastric vagotomy, effect on gastritis, bile reflux and acid output, **A950**
Apud cells, hormonal, multiple, **A410**
ARABI, Y., *et al.*: Influence of metronidazole and neomycin on colonic microflora in healthy volunteers, **A969**
——, *et al.*: Internal sphincter a cause of symptoms in anal fissure, **A413**
ARDILL, J., *et al.*: Gastro-intestinal hormones in non-endocrine cancers, **A989**
ASHTON, M. G., *et al.*: The Lundh meal and ERCP in pancreatic disease, **A980**
ASQUITH, P., and HAENEY, M. R.: Inhibition of leucocyte migration by α-gliadin in patients with gastrointestinal disease: its specificity with respect to α-gliadin and coeliacs, **A942**
Autonomic nervous system, third ('purinergic') division of, importance in gut control, **A962**
Axial tomography, computerised, in pancreatic disease, assessment of, **A418**
—— ——, ——, whole body, value in diagnosis of liver disease, **A417**
AZAD KHAN, A. K., *et al.*: Experiment to determine the active therapeutic moiety of sulphasalazine, **A971**
——, *et al.*: Optimal dose of sulphasalazine for the maintenance treatment of ulcerative colitis: interim results of a controlled therapeutic trial, **A421**

Bacteria, colonic, influence of metronidazole and neomycin in healthy volunteers, **A969**
——, contamination of fibreoptic endoscopes by, **A940**
——, intestinal, influence of inflammatory bowel disease, **A423**
—— of stomach in patients requiring gastric operations, **A955**
——, overgrowth, breath hydrogen after lactulose as diagnostic test for, **A985**
——, ——, without 'blind loop' as cause of malnutrition in elderly, **A969**
Bacteriophage ϕX174, immune response to, impairment in ulcerative colitis with hyposplenism, **A424**
BAKER, R., *et al.*: Are prostaglandins deficient in peptic ulceration?, **A950**
BARRY, R. E., and FORD, J.: Estimation of the sodium content and neutralising capacity of some commonly used antacids, **A969**
BATESON, M. C., and BOUCHIER, I, A. D.: Local infusion therapy for radiolucent retained common duct stones using sodium cholate, heparinised saline, and physiological saline, **A977**
——, *et al.*: Dissolution of radiolucent gallstones using a fixed dose of chenodeoxycholic acid, **A976**
——, *et al.*: Effect of prolonged chenodeoxycholic acid feeding on bile in patients with and without gallstones, **A419**
BATEY, R. G.: Control of iron absorption in pregnancy, **A426**
——, *et al.*: Value of serum ferritin in the management of haemochromatosis, **A954**
BATT, R. M., *et al.*: Separation and characterisation of the

organelles in peroral jejunal biopsies from the dog, **A960**
B-cell antigens in coeliac disease, **A409**
BEATTIE, A. D., *et al.*: Acute lead poisoning—an unusual cause of hepatitis, **A968**
BELL, G. D., *et al.*: Effect of ioglycamide (Biligram) on bile flow and biliary lipid secretion in man, **A403**
BENJAMIN, I. S., *et al.*: ERCP and fine needle percutaneous transhepatic cholangiography in the diagnosis of biliary tract disease, **A416**
BESTERMAN, H. S., *et al.*: Coeliac disease: diagnostic hormone profile, **A942**
Bethanechol chloride and cigarette smoking, effect on lower oesophageal sphincter pressure in normal subjects, **A403**
Bile acid, neutral sterol and faecal fat excretion in fenfluramine treatment, **A951**
—— acids, biliary and faecal, composition of, in liver disease, **A988**
—— —— in gastric juice, measurement of, as test for bile reflux after gastric surgery, **A413**
—— ——, intestinal sensitivity to, and small intestinal secretion in irritable bowel syndrome associated with diarrhoea, **A963**
—— ——, plasma clearance rate as test of liver function, **A402**
—— changes after bran feeding, time-pattern in normal young men with standard dose, **A951**
—— composition and 'bile cast' formation after liver transplantation, **A403**
—— —— and calcium carbonate deposition in gallstones, **A402**
—— duct and sphincter of Oddi, duodenoscopic manometry of, **A407**
—— ——, common, retained radiolucent stones in, local infusion therapy with sodium cholate, heparinised saline or physiological saline for, **A977**
——, effect of prolonged chenodeoxycholic acid therapy in patients with and without gallstones, **A419**
—— flow and biliary lipid secretion, effect of ioglycamide (Biligram), **A403**
—— reflux and acid output, effect of proximal gastric vagotomy and truncal vagotomy and antrectomy, **A950**
—— —— and gastric emptying in combined gastric and duodenal ulceration, **A950**
—— salts, deficiency of, improvement of fat absorption by Tween in, **A426**
—— ——, diarrhoea due to, management with aluminium hydroxide, **A419**
—— ——, effect *in vivo* on acid secretion by rat stomach, **A405**
——, white, in biliary obstruction, experimental production of, **A956**
——, ——, in obstructive jaundice, clinical significance of, **A957**
Biliary and faecal bile acid composition in liver disease, **A988**
—— and gastric function, effect of bovine pancreatic polypeptide infusions in man, **A978**
—— and pancreatic function, effect of cimetidine, **A981**
—— atresia, extrahepatic, results of surgical treatment in, **A956**
—— cirrhosis, primary, and chronic active liver disease, Clq binding activity and complement (Clq, C3) catabolism in, **A979**
—— ——; ——, intestinal 25-hydroxyvitamin D absorption and osteomalacia in, **A401**
—— excretion of iotroxamide and ioglycamide in normal and jaundiced subjects, **A984**
—— lipids, secretion of, and bile flow, effect of ioglycamide, **A403**
—— obstruction, white bile in, experimental production of, **A956**
—— tract disease, diagnosis of, ERCP and fine needle percutaneous transhepatic cholangiography in, **A416**
Biopsies, duodenal, iron uptake *in vitro* by, **A961**
——, endoscopic, routine, in investigation of gut endocrinology, **A941**
——, jejunal, peroral, from dog, separation and characterisation of organelles in, **A960**
—— of ileostomy mucosa, transport activity in, evidence for small intestinal 'adaptation' after colectomy from, **A958**
Biopsy diagnosis of infective colitis, **A986**
—— evidence of hyperplasia of Brunner's glands, **A984**
——, liver, transjugular, **A416**
——, punch, brush cytology before or after, for endoscopic diagnosis of gastric cancer, **A398**
BIRT, C., *et al.*: Neuroleptanalgesia versus diazepam as a premedication for upper GI tract endoscopy, **A940**
BISHOP, A. C., *et al.*: Third division of the autonomic nervous system: an important element in gut control, **A962**

——, *et al.*: Serial changes in plasma tyrosine and phenylalanine levels in patients with fulminant hepatic failure treated by polyacrylonitrile haemodialysis: relationship to coma, **A952**
CHATTOPADHYAY, D. K., *et al.*: Effects of bethanechol chloride and cigarette smoking on lower oesophageal sphincter pressure in normal subjects, **A403**
Chenodeoxycholic (Chenic) acid, dissolution of radiolucent gallstones by fixed dose of, **A976**
—— —— ——, oral, clinical pharmacology of, **A976**
—— —— —— therapy for gallstones, effect of low cholesterol and high plant sterol diets, **A419**
—— —— —— —— in gallstone patients, efficacy of withdrawal from and resistance to, **A976**
—— —— —— ——, prolonged, effect on bile in patients with and without gallstones, **A419**
Cholangiographic agents. *See* Iotroxamide and ioglycamide
Cholangiography, retrograde, endoscopic, in (Oriental) recurrent pyogenic cholangitis, **A957**
——, transhepatic, percutaneous, fine needle, and ERCP in diagnosis of biliary tract disease, **A416**
Cholangiopancreatography, retrograde, endoscopic, and Lundh meal in pancreatic disease, **A980**
——, ——, ——, and surgery in recurrent acute pancreatitis, **A941**
——, ——, ——, pancreatic juice analysis and carcinoembryonic antigen in pancreatic disease, **A980**
Cholangitis, pyogenic, recurrent (Oriental), endoscopic retrograde cholangiography in, **A957**
Cholecystitis, acute, diagnosis by ultrasound and cholescintography, **A985**
Cholecystokinin abnormalities in coeliac disease, **A942**
—— and pentagastrin, myoelectric responses in conscious dog to, comparison of, **A966**
Cholecystokinin-pancreozymin, commercial preparations of, hormonal content of, **A982**
——, half-life, clearance and endogenous secretion rates in man, **A982**

Choledochopancreatography, retrograde, endoscopic, and fine needle percutaneous transhepatic cholangiography in diagnosis of biliary tract disease, **A416**
Choledochoscopy, operative, accuracy of, **A957**
Cholera toxin, dual action on electrolyte and non-electrolyte transport in canine jejunal and ileal mucosa, **A424**
Cholescintography and ultrasound in diagnosis of acute cholecystitis, **A985**
Cholestatic jaundice, diagnosis of, comparison of hepatic scintiscanning and greyscale ultrasonography in, **A417**
Cholesterol diet, low, effect on chenic acid therapy for gallstones, **A419**
—— gallstones, Rowachol as possible treatment for, **A977**
CHRISTOFIDES, N. D., and BLOOM, S. R.: Plasma motilin levels in duodenal ulcer and the effect of truncal vagotomy and hypoglycaemia, **A406**
Chromatography, immunoaffinity, characterisation of secretin-like peptides from tissue and plasma extracts by, **A982**
CICLITIRA, P. J., *et al.*: Experience with cimetidine in the treatment of gastric ulceration, **A419**
Cimetidine and prostaglandins, difference in action on gastric mucosa, **A404**
—— and salbutamol, combined inhibition of gastric acid secretion, **A404**
——, bedtime dose of, for prevention of relapse in duodenal ulcer, **A420**
——, effect of one year's treatment on fasting and oxo-stimulated serum gastrin in duodenal ulcer, **A949**
——, —— —— —— —— —— on parietal cell mass in duodenal ulcer, **A420**
——, —— on biliary and pancreatic function, **A981**
——, —— on gastric mucosal blood flow, **A948**
——, —— on intrinsic factor, investigation of, **A948**
—— in treatment of benign gastric ulcer, comparison with carbenoxolone, **A420**
—— —— —— of gastric ulcer, **A987**
—— —— —— —— —— ——, experience with, **A419**
—— —— —— of gastrointestinal bleeding, **A421**
——, long-term effects on gastric secretion, **A949**
—— maintenance therapy in control of duodenal ulcer symptoms, **A420**
Cirrhosis, abnormal vitamin D metabolism in, **A401**
——, alcoholic, mortality and hospital prevalence, **A968**
——, biliary, primary, and chronic active liver disease, Clq binding activity and complement (Clq, C3) catabolism in, **A979**
——, ——, ——, intestinal 25-hydroxyvitamin D absorption and osteomalacia in, **A401**
CLASSEN, M., *et al.*: Endoscopic sphincterotomy of the papilla of Vater, **A399**
Clq binding activity and complement (Clq, C3) catabolism in primary biliary cirrhosis and chronic active liver disease, **A979**
COCHRAN, K. M., *et al.*: Laxative and gastric mucosal damage —the danger of dioctyl sodium sulphosuccinate, **A422**
COCHRANE, A. M. G., *et al.*: Relative value of lymphocyte cytotoxicity for hepatocytes and conventional blood tests in assessment of histological activity in chronic active hepatitis, **A978**
Coeliac disease, adult, peripheral blood lymphocyte subpopulations in, **A408**
—— ——, B-cell antigens in, **A409**
—— ——, cholecystokinin abnormalities in, **A942**
—— ——, diagnosis from gut hormone profile, **A942**
—— ——, endoscopic dye-scattering in, **A398**
—— ——, hyposplenism of, and immunity, **A961**
—— ——, immunoblasts in, **A409**
—— ——, increased prevalence of epilepsy in, **A943**
—— ——, mucosal damage in, isolation of gluten component causing, **A408**
—— ——, specific immunofluorescence and immunoperoxidase reactions in jejunal mucosa after challenge with gluten fraction in, **A408**
—— ——, specificity of α-gliadin inhibition of leucocyte migration for, **A942**
—— ——, thrombocytosis in, mechanisms of, **A962**
—— ——, untreated, mucosal immune complexes in, evidence for, **A409**
Coffee, effect on lower oesophageal function, **A975**
Colectomy, small intestinal 'adaptation' after, evidence from transport activity in biopsies of ileostomy mucosa, **A958**
Colitis, infective, biopsy diagnosis of, **A986**
——, ulcerative, and malignancy, **A424**
——, ——, faecal protein loss in, direct measurement of, **A971**
——, ——, rectal goblet cell mucous glycoproteins in, studies with fluorescein-labelled lectins, **A411**
——, ——, remission in, comparison of sodium cromoglycate and sulphasalazine in maintenance of, **A973**
——, ——, salicylazosulphapyridine metabolism in treatment of, **A972**
——, ——, sulphasalazine maintenance treatment in, optimal dose for, **A421**
——, ——, with hyposplenism, impaired immune response to ϕX174 in, **A424**
COLLINS, J. P., *et al.*: Assessment of nutrition in surgical patients: a comparison of simple anthropometry with measurement of total body nitrogen from neutron activation analysis, **A983**
Colon, bacterial flora, influence of metronidazole and neomycin in healthy volunteers, **A969**
——, function, effect of dietary protein with and without added dietary fibre, **A411**
——, irritable colon syndrome, and diverticulosis, response to bowel distension in, **A990**
——, —— —— ——, myoelectrical abnormality in, evidence for, **A990**
——, motility, and clinical results after multiple transverse taeniamyotomy for diverticular disease, **A958**
Colonic compliance as index of colonic muscular activity, **A411**
Colorectal and gastric cancers, sensitivity to cytotoxic drugs in culture, **A986**
—— carcinoma, cell kinetic and cyclic amp studies and earlier diagnosis in, **A987**
—— ——, duration of symptoms and prognosis in, **A411**
